FOR IMMEDIATE RELEASE

BRIDGE CORPORATE FINANCE PLC  
ESTABLISHED TO ASSIST WITH FAST ACCESS TO SECURE  
SHORT TERM LENDING FOR THE GROWTH OF LOCAL  
BUSINESSES

Two Manchester Chamber members, have formed a new company, Bridge Corporate Finance plc, to help small and medium sized enterprises, developers and individuals, with their short term funding requirements.

The Chairman, Wayne Shillito, and Managing Director, Mark Packman, have vast experience in commercial and residential property development and investment, estate agency, and project management, with other, well established companies, based in Sale and Altrincham, and have strong alliances with both architectural and design specialists.

The bridging loans will assist companies and individuals to finance commercial and residential acquisitions, or renovation, as well as land acquisitions. This leaves other credit facilities, such as an overdraft, free for working capital requirements.

Bridge Corporate Finance plc allow their clients to borrow up to 100% of the purchase price, against all types of land and property, subject to terms and conditions. The simplicity of the bridge process enables an agreement in principle, subject to valuation, within hours of completing the application form. Bridge Corporate Finance plc is a Principle Lender, so the client deals directly with the decision makers for their bridging finance.
